PRESS RELEASE
FOR IMMEDIATE RELEASE

Dr Lively has amended the lawsuit against Governor Charles Baker and the Massachusetts Republican State Party to emphasize the aspect of conspiracy among the Defendants. He has asked the courts to expedite the discovery process to allow immediate access to documentation regarding the breach of rules in fair competition and party neutrality.

Dr. Lively wants to assure members of the Mass GOP and local committees that this lawsuit is not directed against any of them individually, unless they were actively involved in violating rights under the party by-laws.

Importantly, this action is not just about vindicating rights but also about cleaning up corruption in the Mass GOP. That corruption will be exposed in the lawsuit, which will help us regroup the party on solid moral footing and begin to focus its power & resources on draining – not wallowing in – the Massachusetts swamp.

Our judicial process is specifically designed to allow competent attorneys to expose truth by slicing through conspiracies and systems of corrupt cronyism like those which have become so common here in Massachusetts. There is a lot of corruption within the Mass Judiciary but Dr Lively believes most of the judiciary is honest. We are a Nation of Laws and we must have faith in the system to avoid anarchy and vigilante law. A copy of the amended lawsuit filed is attached. For more information, please visit the website for his campaign <http://livelyforgovernor.us>
